

Hi, my name is Teri and in the spring of 2010 after having been off on a medical leave was feeling very fatigued and overweight as a result of several medications I was taking. However, I noticed my neighbors, looked quite amazing. I asked them what they were doing and how they lost so much weight and looked so healthy. This is when I found Dr. Randolph Pinch and his wonderful wife Karen. I went on their website, Angioprim.ca and was able to obtain their phone number. I called and within 10 minutes, Karen called me back and that was my start to an amazing weight loss regime and my road back to being healthy. I can honestly say this program for weight loss works!! I lost 30 lbs in 3 months. I went from a size 12 back to a size 4!! It is truly amazing how this program gets rid of fat. I was able to wean off all my medications which in fact helped me feel 100% better. Now instead of taking pharmaceutical drugs I have replaced them with the herbs created by Dr. Pinch. I am so grateful for finding these two special people and without their constant support both emotionally and physically I would not be in my healthy happy place again. THANK YOU DR. RANDY AND KAREN!
