

I just want to write in and say thank you for this product. I started using the Viral-Gonn for a personal health reason, and I did not fully understand the capabilities of this product. Then all my friends came down with the flu, including my roommate, and I felt real sick too for two days, then I got better. Everyone else stayed sick for over two weeks! I mean bad sick, one girl got walking pneumonia, and some kids were puking. I didn't miss a day of class, and I ALWAYS catch the flu, and am usually sick for weeks! Thanks so much! This is one investment that really is worth it! Oh, and my other health problem cleared up completely! Wow!
