

BEFORE

AFTER

Hello everyone, my name is Marty L and I'm a patient/client of Dr. Randy Pinch ...

This will be simple and to the point ...

Does Slim-All 2 work? yes ... very much so, the pictures attached will prove it ... Like Randy told me before I started ... " Do I believe " I said yes ... I had nothing to lose and everything to gain . Well that's not really rightly said ... I had pounds to lose, and needed to regain some health and self esteem ...

You see 5 years ago I was diagnosed with a rare form of rheumatoid arthritis, but I still worked, then I had to stop work and go on a disability pension ... I could hardly move, the weight kept coming on even though I was eating rather healthy, or what I assumed was healthy back then. I soared up to 250 lbs ... a very unhealthy and sore 250 lbs ... my knees and ankles could hardly support me, my doctors told me to take 3 10 minute walks a day, I could hardly finish 1... Then my cousin Lynne L came to visit, told me about this miracle, was worried sick at seeing me in that state, she to asked if I believed ... I said yes ... she purchased my 1st products for me, as a birthday gift but also a person with a great heart.

In my 1st week I could feel changes inside of me ... I had started to shed , the knees and ankles were less spongy and crunchy ... I did what I was told .. I took my Slim-All 3 times a day with cucumbers and meat ... I was never hungry, my walks became longer and I even got a dog for company ... so yeah..it worked... still does ...I now weigh in at 195 lbs ... I try not to go over 200lbs ... as I do cheat every now and again ... but my body knows when it's time to cleanse ..as do my joints ...

I have now moved to Australia, but I still keep ordering my Slim-All ... I swear and live by it ...

Thank you, sincerely

Marty L
